

Indemnification Form

Vignola Trucking and Rigging Co. has served the Eastern United States for over a century. Our quality installers take great care in avoiding damage to any of your surfaces. Flat surface areas like wood floors, tile and marble are protected. Some stairs construction cannot tolerate weights beyond their capacity or poorly installed/glued finishes, but it is very difficult to determine this prior to installation. 98% of the time installation goes smoothly and without a glitch. There are some instances when damage occurs. Vignola will not take responsibility for any damages beyond our control to any surface including but not limited to paint or stained wood surfaces, carpeting, carpet runners, vinyl or carpet treads or any other surface that comes in contact with our equipment. Stair climbers used in the installation prevent us from covering the stairs for safety reasons. Booties cannot be worn by our installers for the same reason.

This form indemnifies Vignola Trucking and Rigging Company from any damages, remedies or inherent costs related to damage caused by equipment used in the installation of your safe.

Risk factors safe weights
200 to 500 lbs Low Risk
501 to 800 lbs Medium Risk
